T.I.C.N.

At TICN our learning philosophy is driven by three distinct aims:

Making it SIMPLE

One of the core values of TICN is the commitment to making investment education **simple, fun, and easily accessible** to anyone. Knowledge in itself has little value, unless it is understood well and used effectively. At TICN we are constantly on the lookout for new and better ways to learn, retain and reuse our knowledge. We use the latest technologies, products and solutions wherever possible to simplify the process of learning and to allow more people and clubs to benefit from our education.

Making it REAL

Our educational programs are designed to bridge the gap between theory and the real world through extensive use of **real-life scenarios** and actual examples. All of our educational offerings are taught by well respected professionals and experts with years of **real world experience** in the field. Our curriculum is "**Designed by Investors, for Investors**" to ensure that we deliver the right content at the right levels to the right audience. Our philosophy of "Making it Real" for the customer means the experience you get at our training is as close as you can get to the real thing.

Making it HAPPEN

At TICN we aim to go over and beyond the boundaries of delivering "pure theory" training to our members. Our goal is to really empower our members to be **successful, smart, confident and thinking investors**. Investing is a serious business and our philosophy of "Making it Happen" means we aim to provide our members with a comprehensive spectrum of tools, products and services that will enable any investor to **get started** quickly and easily, and to be ultimately successful in their investments.

Coaching Today's SELF Investors

Graphs and Charts

Technical analysis of share movements is vital to our decisions. Graphs and charts and learning how to utilize all the signals and indicators available on your charting package is like mapping the most likely future of a share. There are many powerful indicators on good charting programs and being able to follow these adds significant power to your decisions. In this area we can also build filters which will find shares performing to our requirements – this saves us many hours of searching. (ORP - €355)

The Choices with OPTIONS.

CALL Options

An ongoing income from your shares portfolio can be generated using covered CALL writing. Learning the other strategies we can use to capitalize on a consistent income can be very profitable. Buying options can also be very profitable but is extremely risky for the uneducated – in this module we cover in detail the positives and the negatives of option trading. (ORP - €355)

PUT Options

The markets and shares go down as well as up. PUT options allow us to trade the downside as well as protecting our positions. Trading PUTs is the opposite of trading CALLs where we want the share price to fall. These are a great way of insuring our long positions also – just in case !! (ORP - €355)

LEAP Options

LEAPS are long-term options which give us cheaper positions with huge LEVERAGE. We can accumulate a portfolio with equal potential as if we owned the share but with a lot less money, while being able to leverage the returns significantly. LEAPs often become the favored way of trading for many investors. (ORP - €475)
